www.waglerwood.com

Welcome to Wagler Manufacturing

You will notice that we do not put model numbers on our plaques and bases, as there are an unlimited amount of sizes and shapes that our customers need.

This allows our customers to choose any length, width, and thickness and use this formula,

$$length \times width \times thickness = sq\ inches.$$

Innovation has been our team of professionals goal from day one at Wagler Manufacturing in product design, quality, and value. We are engrossed in manufacturing new designs, and ways to economically produce these designs.

No matter what your product needs are, we are dedicated to earning your business. We have set up a production needs Quote Chart, which allows us to quote parts for companies that use any type of volume. This remains our goal today. lower cost per part with increased quality!

Since product capabilities are so unlimited, due to the technology and machinery in our facility, this catalog shows generalized abilities. This does not show every model or design possible. So in short, use your imagination, or if you have products you already use, send a sample or design idea to the address on back and we will generate a sample and quote of your exact needs with no obligations!

Quality Components

Kiln Dried Woods

We use only properly dried woods of 7% & less moisture content! This is an important factor that many people are unaware. If the wood is not dried to 7% or under you actually have a low quality product. The reason for this is that wood shrinks when it dries. Imagine if you build something with wet wood, and it dries over time in your home environment. This is how splits, cracks, & warps happen. I'm sure you can see why it would be a low quality product!

This is why all of Our wood is dried to 7% or less because this is the point of moisture your home environment will maintain in woods!

The splitting, cracking, & warping is done before we build. The bad is cut out, and you are left with a premier quality product you will be proud to resale or put into your lifestyle.

Premier Finish

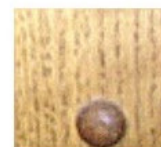

This is the closest resemblance we can give as to the quality of the finish on our premier products!

The grain of the wood is the only difference between your catalog paper and our finish! Some woods naturally have less of a grain feel than others. Below is a listing of woods that you can feel the most grain & the least. Some of the woods with the most grain feeling are species of Oak, Ash, & Elm --- This is due to the open nature of the grain. Some of the woods with the least grain feeling are species of Alder, Walnut, Cherry, & Maple ---- This is due to the tighter nature of the grain.

We apply our finish with the finest finishing materials & spray equipment in the industry! Our finish is a close guarded secret of 2 generations of experience in fine woodworking!

IT HAS BEEN TRIED AND TESTED. IT'S PREMIER.

Our finish is free from dust, dirt, & foreign contaminants, & our wood is sanded to the right level to insure a premier finish! This applies to all of our products except any economy products!!!!

Hanging Methods

The first, the best, & the only in the Industry! We engineered & built the machine that completes this process. This design completely hugs the wall. Keyholes are normally just a slot that is next to impossible to make tight. We have created a tapered process that is far ahead of our competitors!

These slots are found on all of the plaques & wall hangings we sell, except for the shelving that require drilled holes. All shelving is equipped with hanging holes that are 16" on center to catch the studs in most homes. The hanging holes come with caps to cover the screw heads.

Wagler Woodcrafts, Manufacturing

605 N. Parkway

Wayland, IA 52654

(319)256-9663

Owner: Curt Wagler

This business is a trade that has been passed down generation to generation. Curt's grandfather started woodworking as a hobby, his dad, Delmer expanded on that by building home interior items for retail. Curt then expanded the business into manufacturing as well as retail. We now offer premiere quality wood, plastic, & metal products.

The business started out in a small shop behind Curt's father, Delmer's house & last July was the Grand Opening for Curt's new building in the Wayland Industrial Park.

In the last year since opening the new facility Curt has met the challenges of a growing business with:

- Bigger machinery to produce a higher volume of parts & products
- Added more room in the facility for a large computer itemized packing room
- Added more room in the facility for a top of the line custom assembly room
- Added a new design your own kitchen cabinet center with a one of a kind hands on build your own cabinet door for the convenience of our customers
- More clientele from not only individuals but from factories & big businesses as well
- An increase in wholesale sales in the U.S. & overseas. The increase is largely due to local factories & retailers learning about our competitive rates, diverse offerings, & small & large quantities.
- Due to our in house website, web sales are on the rise daily
- One of Curt's biggest challenges is building a lot of his own specialized automated & conventional types of machinery to keep the facility running efficiently for a business that continues to grow on a daily basis

Let's Talk Laser Engraving.

1. Size? Milled? Lasered?

What we need for Milling or Lasering?

2. Location?

Top Left	Top Center	Top Right
Left Middle	Center	Right Middle
Bottom Left	Bottom Center	Bottom Right

3. Clipart # ?

4. Text & Font?

Text & Font Style Desired
To Be Lasered

1. Milled pocket or Lasered area Size X
2. Placement Location (choose from chart above)
3. Clipart Item # or Shape bitmap or paper trace
4. Text & Font Desired
5. Contact Info

**5. Submit above info here
by e-mail**

Laser Engraving

Setup (for under 10 plaques)
+ \$7.00 per each different image

Laser engraveable plate (no lasering)
\$0.23 per sq. inch, minimum of \$5.00 per each
Laser plates are all the same price.
(A 7x9 plaque would normally use a 6x8 engraved plate.)

Laser on wood plaque or on plate if ordered
\$0.12 per sq. inch, minimum of \$4.20 per each

Milled Inlays

Milled Inlay Pocket (square corners)
\$0.28 per sq. inch

Milled Inlay Pocket (round corners)
\$0.25 per sq. inch

Acrylic Glass Panel for Photo Inlay \$0.17 per sq. inch
.125 Thick wood Panel for Inlay \$0.17 per sq. inch

Inlays are Pieces cut to fit a milled recess that are used for Photos with clear acrylic glass panels, Knot Holes to mount racoons, ducks, squirrels, & etc., tiles for lasering, & 2 tone wood colors that fit nice in the recess & give that custom mount look not many have.

Mirror Lasering

*There are 3 types of lasering conditions.
Picture lasering, Clipart lasering, & Text Lasering.
Each of these three ways are exceptionally nice, but
have different characters about them! Photos are the
most difficult & some photos are not suitable for laser
engraving. Clipart & Text are suitable on any mirror.*

*Photo Engraving on Mirror
with Black Background*

*Clipart Engraving on Mirror
with Colorfill Background*

Colorfill Has an Additional Cost!

Visit www.waglerwood.com

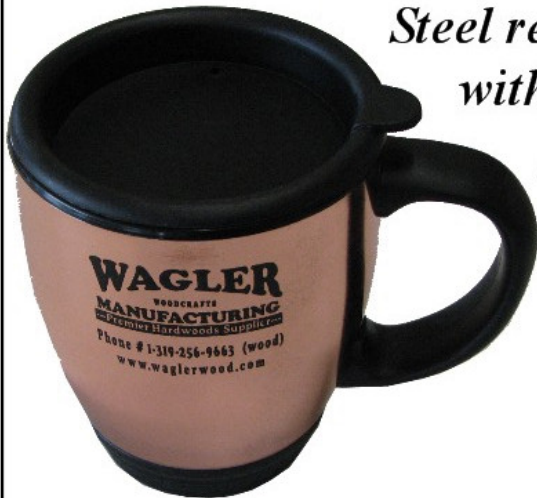

Cup Lasering

Clipart lasering, & Text Lasering.

Each of these 2 ways are exceptionally nice, but have different characters about them! Clipart & Text are suitable on any cup.

*Ceramic mugs & steel mugs are able to be lasered.
Ceramic can be colorfilled to your likings.*

*Steel requires a special compound that interacts
with the steel when lasered which creates
premenant markings on the steel!*

*Lasered promotional products include coffee cups / mugs,
rulers, pencils / pens, belt clips, flashlights, key rings, & etc.*

Ornaments & Key Rings

Ornaments & Key Rings can be made from Wood, or Acrylic Plastic.

Making your own design is simple. Choose the shape at the bottom, then the text or clipart needed!

Ornaments have a hole to hang with ribbon or ornament hook. Key Rings have a hole with a plastic retainer so the ring remains parallel to the key ring body.

**Christmas
&
Holiday Ornaments**

Key Rings
Fun - Personal - Corporate

**Great way to advertise your
business, or mark room keys**

Wood Lasering

There are 3 types of lasering conditions.

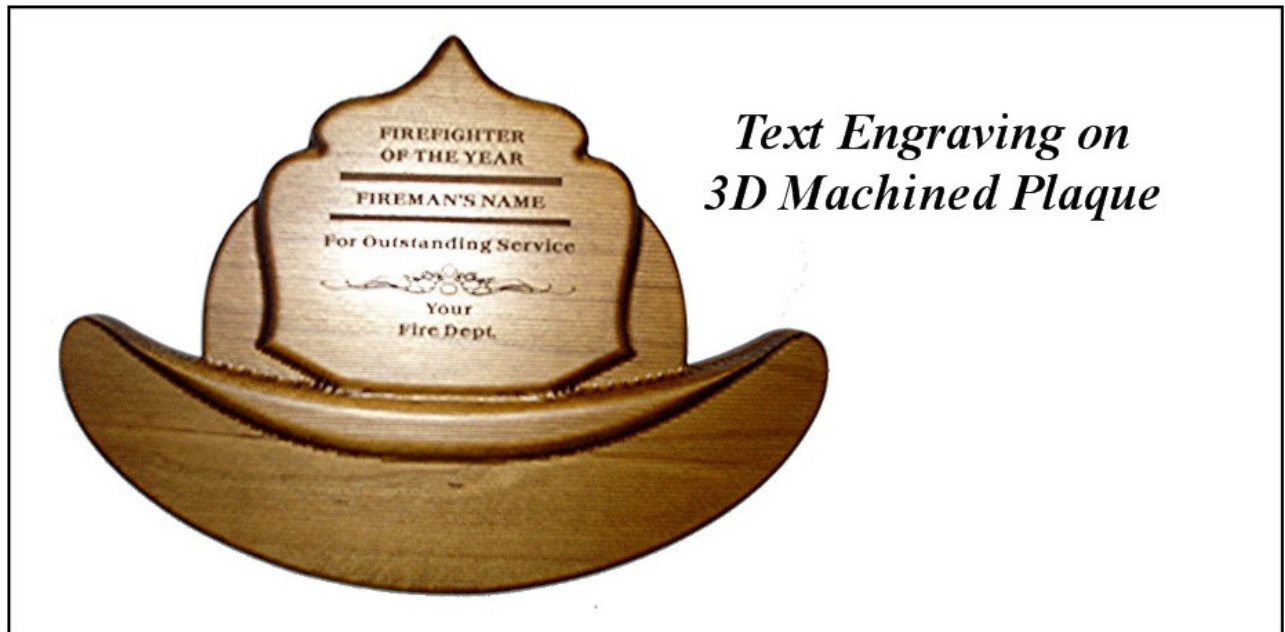

Picture lasering, Clipart lasering, & Text Lasering.

Each of these three ways are exceptionally nice, but have different characters about them! Photos are the most difficult & some photos are not suitable for laser engraving. Clipart & Text are suitable on any wood, just remember that dark wood does not show the engraving as well as the lighter wood!

Photo Engraving on Block

Clipart Engraving on Milled Box

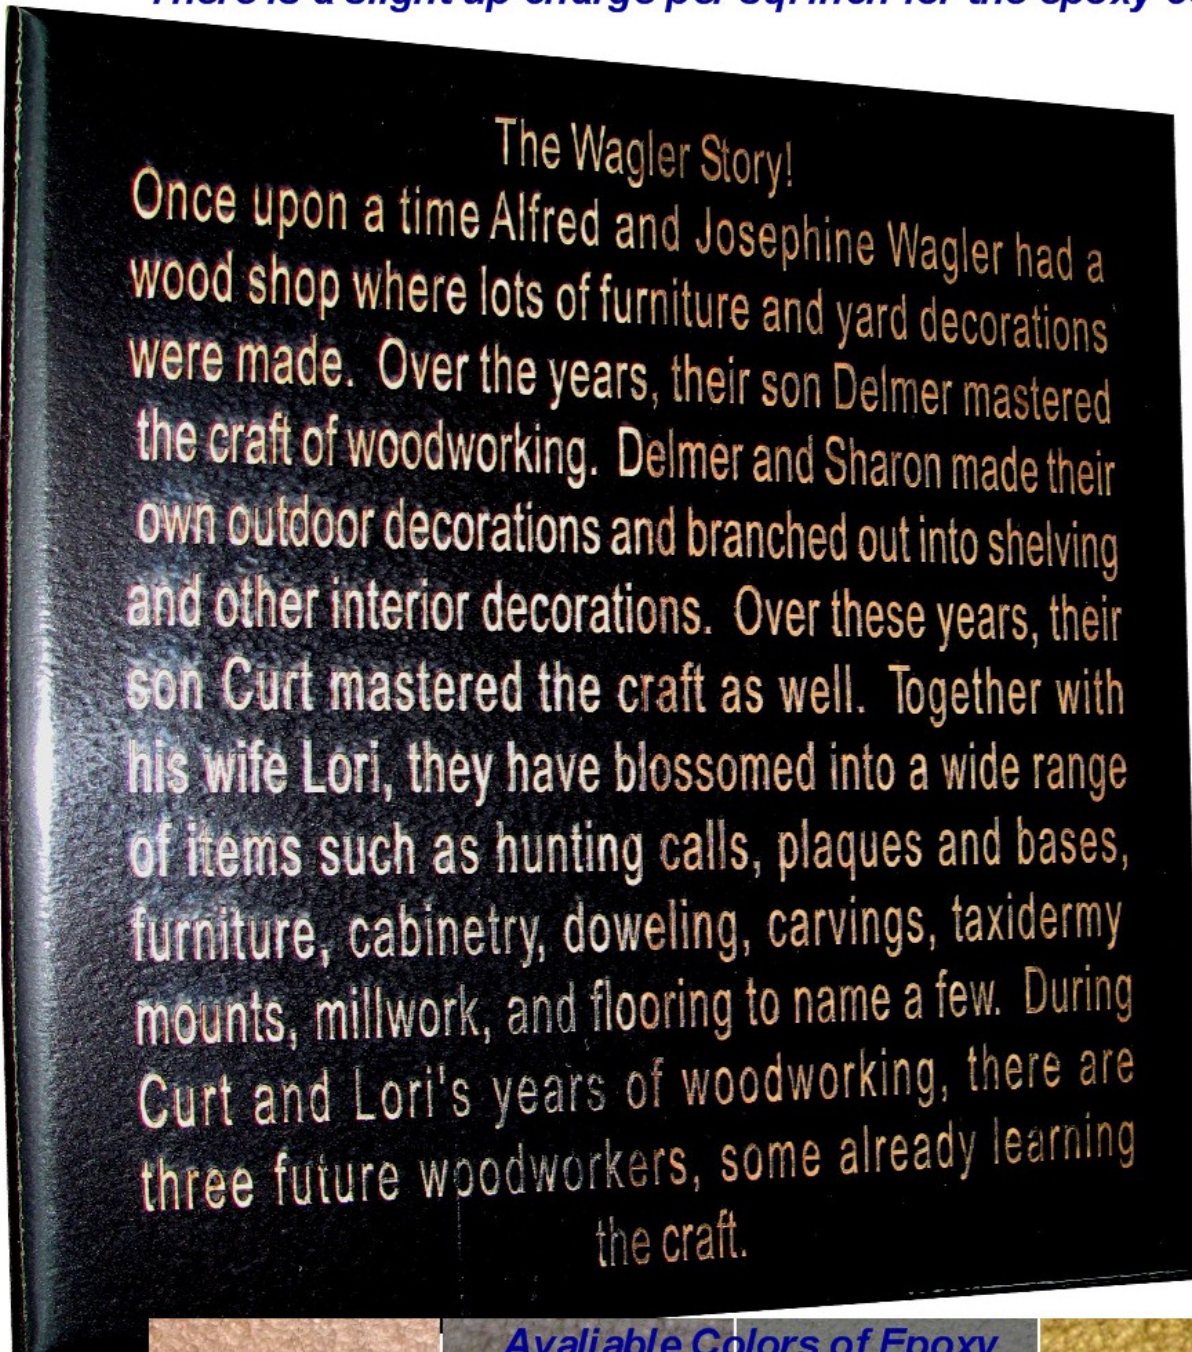

Text Engraving on 3D Machined Plaque

With a little thought your project will stand out for years to come!

Epoxy Coated Maple Plaques

***These are an epoxy coated plaque.
When you laser through the coating the brown laser
color of the wood shows for an exciting finished
product look!***

There is a slight up charge per sq. inch for the epoxy coating

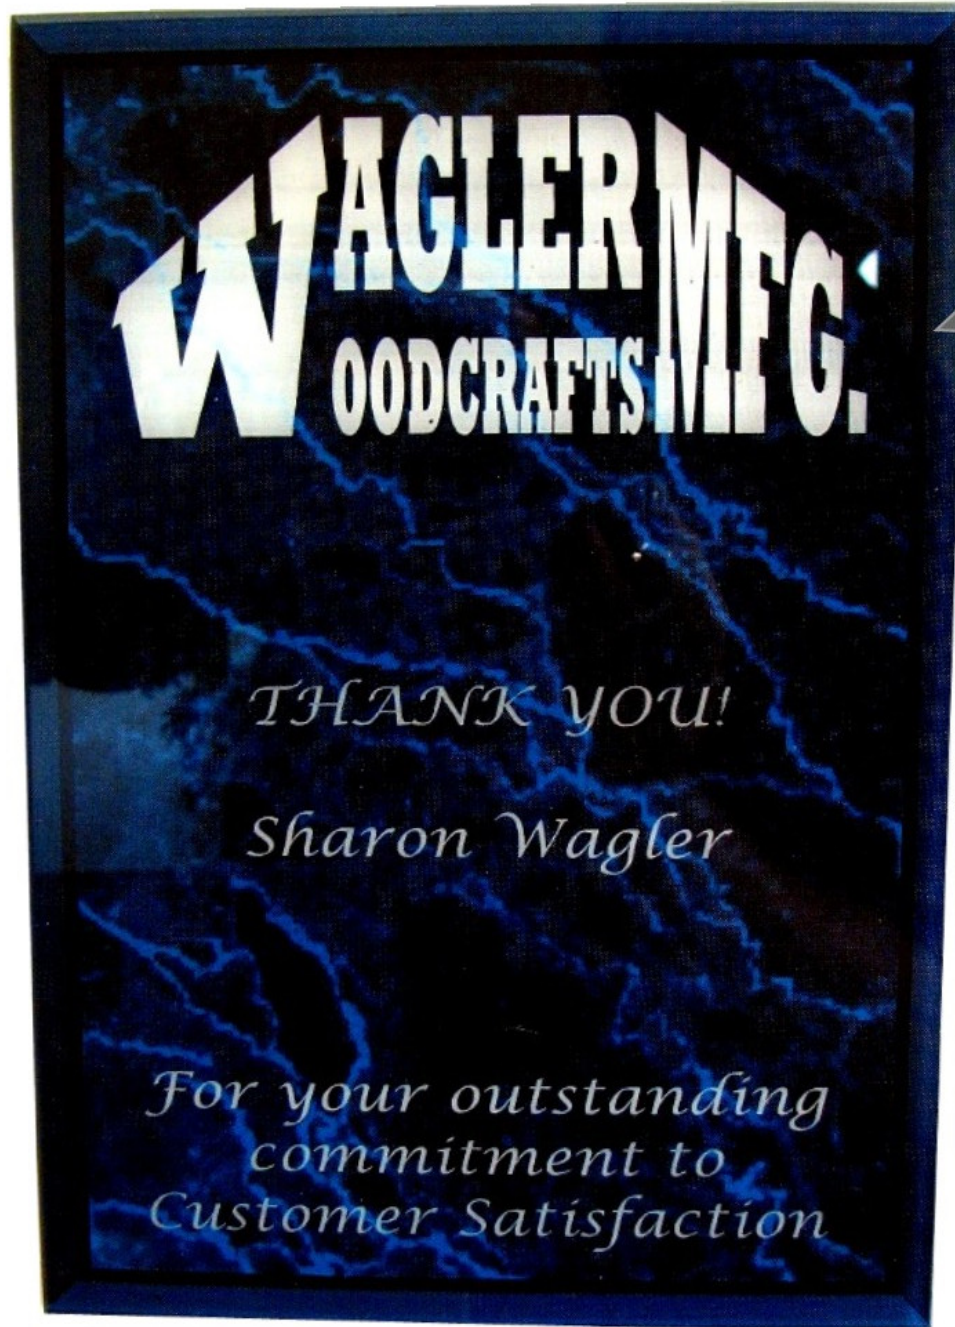

Just use enough power when lasering to cut off the finish!

Lettering will always be this color shown

Black Vein Shown

Acrylic Plaque Plates

Blue & Red
Marbled Acrylic
have the Border

Acrylic Plaque plates do not follow the per inch pricing that all other plaques follow. These plaques come in 3 different sizes.

5x7 -- \$22.76

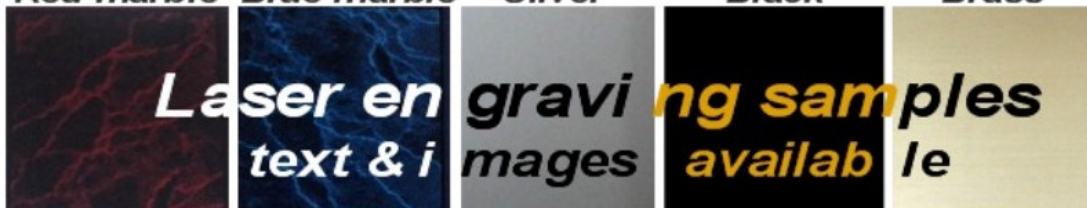

6x8 -- \$27.16

7x10 -- \$31.56

All are suitable to be mounted on any plaque or base!

Silver, Black, & Brass Have the engraving cut in from the front!
Unlike the Marbled

Red marble Blue marble Silver Black Brass

ABOVE SAMPLE REFLECTS COLOR OF ENGRAVING FOR EACH PLATE

Custom laser engraving is optional for companies or individuals, with approved artwork

When ordering engraved plate please type text & be specific with your images.

Plastic engraving plates are all the same price, please refer to price list for pricing.

Brass Plaque Plate Lasering

Enamel Coated Plates are the high end of today's Plaques & Awards. Enamel Coated Plates are simply Brass Plates with Enamel Coating, To achieve the letter markings desired, the Laser Beam removes the coating in those areas exposing the high class brass finish.

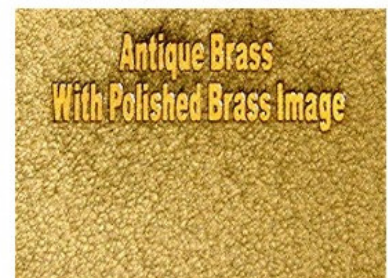

These plates are how name Plaques, & Award Plaques are created. Simply cut the desired sizes & screw to a Plaque.

Black Vein Shown

NOTICE "firefighter of the year" text is shadowed

Enamel Color Choices Against 2 Wood Tones

Gun Stock Engraving

*This is Casey A Liver &
White Springer Spaniel*

We mail a sample piece for aproval before we cut your stock!

*This is Cody A Black &
White Springer Spaniel*

*Have you ever had the best
hunting dog & Lost him or her?*

*I know I have, he still goes on
every hunt. Yours could also!
Photos, Clipart, & Text are able
to be engraved into gunstocks!*

*Stocks pictured were lasered
before the gun was refinished
This is optional!*

*We get asked alot if you have to refinish the
slock once lasered?*

*The ansewer is no, most gunstocks are
finished with polyurethane or lacquer varnish.
When we engrave yes we cut through the
finish, but understand that the laser beam
burns the wood which naturally seals the wood!*

*We only need the stock,
DO NOT SEND FULLY ASSEMBLED GUN!*

Color Filled Laser Engraving

*Adds the Class that just
lasering on wood leaves out!
At Prices lower than
engrave able plates with
unique style!*

*We can color letters,
logos, & simple
images such as the
letters & crown below!*

*Letters, logos, & simple images such as the crown
above can be just about any approved color!*

Pictured in Cherry

Colors are lacquered to lock in the beauty for years to come!

EXCELLENCE

Rotary Lasering Cylinders

Using the fixture pictured above, we can rotate & engrave any cylindrical object. This includes Glasses, Track Batons, Mini Bats, Dowels, Cones, Turned Urns, Trophy Bases, Hunting Calls, & any other round object. This means we can completely wrap the logo around the object!

Shipping and Delivery Terms

All items are priced FOB Factory.
Shipping and/or delivery are charged per individual order.

If the item is small enough to ship UPS, Fed Ex, or USPS, the shipment charges are by amount of sale for up to 5 item purchases.

These prices are not eligible on items totaling over 50 pounds!

We ship by UPS, FED EX, or USPS for small shipments, at our disgression. We also, will charge recievers account if requested (which eliminates shipping charges from us on invoices). You would pay the carrier directly. If this is your preference, please put your shipper # in the shipping price box & mention the carrier.

Sorry, No COD's.

<i>Purchase Price</i>	<i>Shipping Charge For Shipments in the US only</i>
\$0.01 - \$9.99	\$5.00
\$10.00 - \$49.99	\$9.00
\$50.00 - \$99.99	\$15.00
\$100.00 - \$199.99	\$20.00
\$200.00 and over	\$25.00

For large shipments, we use insured freight haulers. Most shipments go by PANAMA TRANSFER. We get great rates on large shipments out of our dock but we can't guarantee rates on large shipments as they are dependant on weight. The charges are added to the invoice or charged COD. Your choice!

If you request a quote for your production needs, we can possibly set a solid freight rate for your company's products!

Delivery

There is \$48 minimum fee for delivery or \$1.10 per mile.

We will deliver or ship by large truck, whichever is more economical for the customer.

To keep our shipping and delivery costs down, some minor assembly may be required on bulky items, such as tables.

Please continue to visit our dealers for your product needs, their shelves are full of quality products!

Dealer Info.

*Visit www.waglerwood.com for any product questions!
We are continually striving to engineer the products you deserve that last a lifetime, with a retail dealer network that is accommodating to your needs & desires!*

*Buy it the Wagler way, Solid.
